### Summary:

I'm a passionate beginner web developer with foundational skills in HTML, CSS, and JavaScript. Eager to learn, collaborate, and grow within the Industry. Committed to crafting clean, user-friendly websites. Seeking opportunities to contribute and expand my skill set in a supportive team environment.

### Projects:

#### - **Personal Portfolio Website:**

Build a website showcasing your skills, projects, and resume. Use HTML, CSS, and JavaScript for the frontend, and a backend framework like Express.js or Django for the backend.

#### - **To-Do List Application:**

Create a simple to-do list app with basic CRUD (Create, Read, Update, Delete) functionality. Use HTML, CSS, JavaScript for the frontend, and Node.js with Express.js or Flask for the backend.

#### - **Weather Application:**

Build an application that fetches weather data from an API and displays it to the user. Use HTML, CSS, JavaScript for the frontend, and a backend framework like Express.js or Flask to handle API requests.

#### - **E-commerce Website:**

Create a simple e-commerce website where users can browse products, add them to a cart, and make purchases. Use HTML, CSS, JavaScript for the frontend, and a backend framework like Express.js or Django with a database like MongoDB or PostgreSQL.
